GENERAL INFORMATION

About Guatemala

Population: Approximately 18.12 Million live in Guatemala, the most populated country in Latin America. Of those, 59% live in poverty and 23% in extreme poverty.

Political Status: Guatemala signed a peace treaty in 1996. Since then, there has been no uprising, and it is one of the most stable third-world countries in the Western Hemisphere.

We will be working in the region of Zacapa noted on the map above. The region is very dry and arid, and temperatures can get extremely warm, so we will be taking shifts to avoid overexerting ourselves.

About Hearts in Motion

We are traveling with a group called Hearts in Motion (HIM). HIM is a non-profit, non-denominational organization focusing on the needs of impoverished children and families. Our volunteers are working together in a ministry of compassion, promoting personal growth through cultural exchange. HIM's mission is committed to meeting the needs of individuals by aiding in the development of programs in health, education, and welfare, both in the US and throughout Central and South America, and was incorporated in 1993 with 501(c) 3 nonprofit status.

They are a very reputable organization and have a great working relationship with the community that we will be working with in Guatemala. The group does not extort or use the people of Guatemala in any way, shape, or form and places the majority of the money paid for the trip right back into the Guatemalan economy.

You can find out more about HIM at www.heartsinmotion.org.
